**Question:**  
 Some people think that diet is more important than exercise while others think that it is exercise that is the primary factor in health. Discuss both views

How many ideas / answers?

*In terms of diet*, there are many people who believe that as more significant than exercise when it comes to the most important elements of health. In my view, diet is the most important factor, and in this essay, I will discuss both views and give my opinion.

One of the key reasons why diet is the most important factor is bad diets cause disease. That is to say...blah blah blah blah blah blah blah blah blah blah blah blah blah

Another key reason why diet is an important factor is a good diet can increase energy. blah blah blah blah blah blah blah blah blah blah blah blah blah

In conclusion, I believe that diet is more important than exercise when it comes to health. One reason is that bad diets cause disease and another reason is energy.

WEEK 8:

**INTRODUCTION TO MAIN BODY PARAGRAPHS...**

**When it comes to travelling by train, some people think that onboard amenities are very important. Others tend to regard not being late as the most important factor. Do you agree or disagree?**

When it comes to travelling by train, many people believe that onboard amenities are very important. Others tend to regard not being late as the most significant reason. From my perspective, not being late is the most significant factor, and in what follows I will give my opinion and discuss both views

One of the reasons why not being late is important is people have jobs. That is to say, when a person is often late to start their job, they can get in a lot of trouble. For example, when I was late for my an event once, I felt sad because I missed my niece opening a present I bought her.
