When it comes to travelling by train, many people believe that onboard amenities are very important. Others tend to regard not being late as the most significant reason. From my perspective, not being late is the most significant factor, and in what follows I will give my opinion and discuss both views

One of the reasons why not being late is important is people have jobs. That is to say, when a person is often late to start their job, they can get in a lot of trouble. For example, when I was late for my an event once, I felt sad because I missed my niece opening a present I bought her.
